On December 14th in museum Baltic amber art display will be opened, it will be on display until March 2013. Estonian and Lithuanian exhibition will show amber jewelry, while Riga and Latvia will be represented by well known textile artist Iveta Vecenāne showing amber as historic material applications nowadays in science and art, connecting past and future. Novel material – amber thread of RTU scientist Dr. Inga Ļašenko be used (Inga has performed wide-known research on amber). This project is desire to show Riga as modern home of future amber within Riga 2014.
