FILO, the international fair of yarns and fibres, was celebrate its 41th Edition (Milano, Italy. 5-6.03.2014.), in the wake of “youth” intended as a projection towards the future, a future with solid roots in the excellence of products made in Italy.

From Italian and European excellence, they could find valid confirmation among the stands at the fair.

But even behind the scenes, FILO avails itself of the collaboration of companies that stand out for quality and professionalism.

Even through the choice of sponsor companies, FILO underscores the values distinguishing the fortieth first edition: the quest for product excellence, the ability to innovate, professionalism and efficiency.

FILO, the international fair of yarns and fibres, was celebrate its 41th Edition!
